

The Big AI Project Liverpool City Region Rollout

Welcome to the Liverpool City Region - The Big AI Project Rollout

The [Big AI Project](#) has one important goal:

To equip every school across the UK and ROI with what is needed to approach an AI-infused world safely, ethically and strategically.

Our school leader training (Heads, MAT CEOs, MAT School Improvement Lead) has been delivered to representatives from approximately 1000 schools across the UK, and the evidence shows that it has resulted in significant transformation for the schools attending.

The average rating from school leaders is **9.5/10**.

All resources are designed by teachers and school leaders across the UK.

Professor Rose Luckin CBE (Professor of Learner Centred Design at UCL, Knowledge Lab) and her Educate Ventures team quality assured all content as the Academic Research Partner.

What do I get FREE from The Big AI Project:

- Face to Face School Leader Training and Resources (half-day, in-person)

After the in-person leaders training schools then receive:

- A Suite of 6 Online Teacher Training CPD Sessions
 - Foundational Introduction: Demystifying AI
 - Safeguarding, Data Privacy and Ethical Considerations
 - AI Literacy: Critical Thinking, Problem Solving, and Effective Questioning
 - AI in the Real World: Careers and Sustainability
 - Implementing an AI Literacy Curriculum
 - Theory to Practice

Teachers will complete a quiz assessment and receive a certificate on completion of each module.

What do I get FREE from The Big AI Project:

After the in-person leaders training schools also receive:

Who leads The Big AI Project

Ali Gellett - Big Education Multi Academy Trust

Ali leads The Big AI Project and has worked in education for over 25 years. Ali started her journey as a secondary school Maths teacher, has worked in MAT executive leadership, local government and as a primary school Chair of Governors. She is a Fellow of the Royal Society of Arts.

Ali specialises in listening to what educators want and delivering regional and national programmes to transform education.

Ali also runs the My Future primary school careers and aspirations programme which has worked with 35,000 children and enabled over 800,000 encounters between a child and an employee.

Partners

The Big AI Project is delighted to collaborate with some of the leading organisations in the exploration of AI within education in the UK and globally.
